

MANUAL INSTRUCTIONS

EPIC TEXT & LOGO EFFECTS

Hi there,

Thanks for purchasing
AtoZ: Epic Text & Logo Effect

Inspired by a very popular game:
Dota and *Hearthstone*.

Now you can create similar effect
with your own logo, icon, or text in a
minutes!

No need to install patterns, styles, or
brushes. You don't even need to play
any Actions!

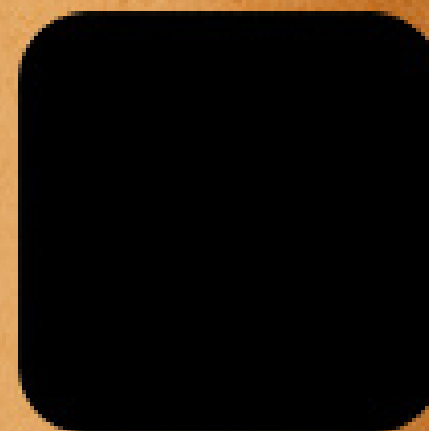

Just simply edit the smart object, it
will automatically generate itself.

In your purchased item, there are
following files:

- 1 Photoshop File (.psd)
- 1 Manual Instructions (.pdf) *what
you are reading now :)*

WARNING

Only works with Adobe Photoshop CC

Quick Tutorial

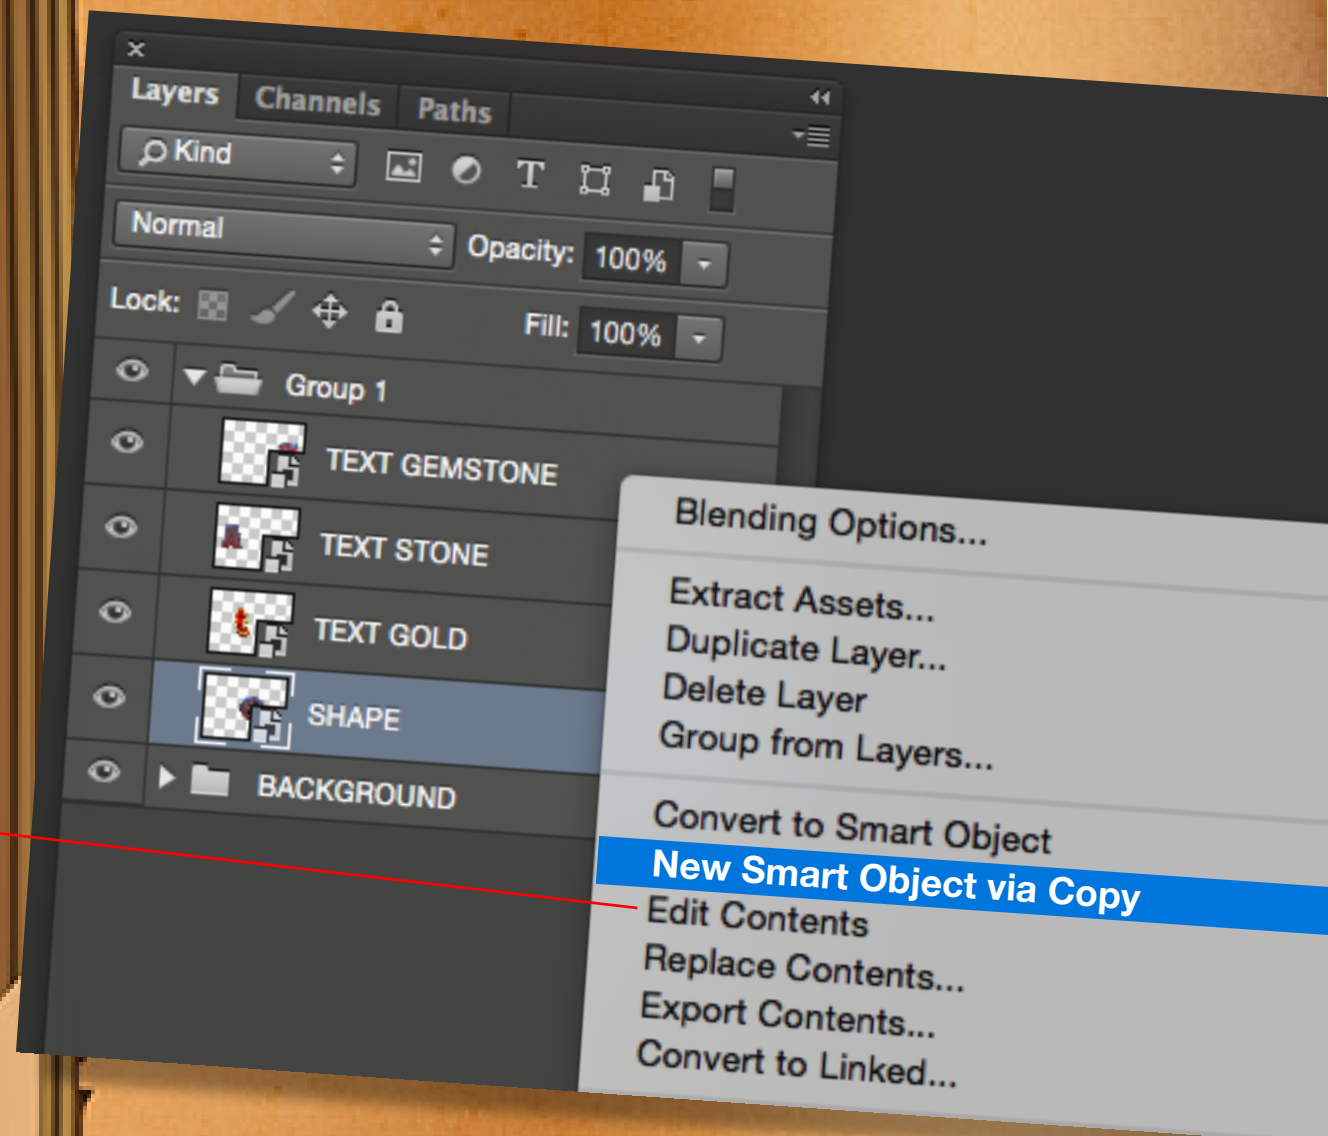

Open the psd file provided in your downloaded files.

Select 1 from 4 provided items. Then on the layers window, right-click “New Smart Object via Copy” and hide the others to start creating new artwork.

Doubleclicks the smart object, or right-click, Edit Contents

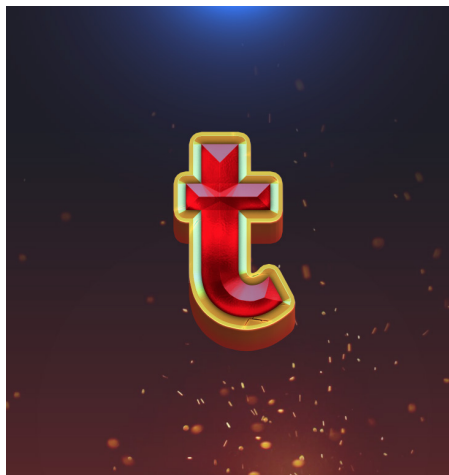

You will find a layer, name: “DOUBLE CLICKS TO EDIT” Doubleclicks on it, or right-click Edit Contents.

Replace the layer with a Letter or Shape or Logo of your own. When finished, press Command+W to close the document. A popup will shown, just select “Save” and your smart object will automatically updated.

It's a smart object inside a smart object?

Confused? Let me explain ;)

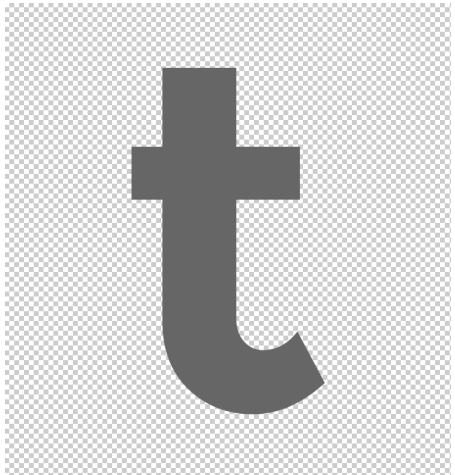

Main Document

Doubleclicks this to
Edit Contents

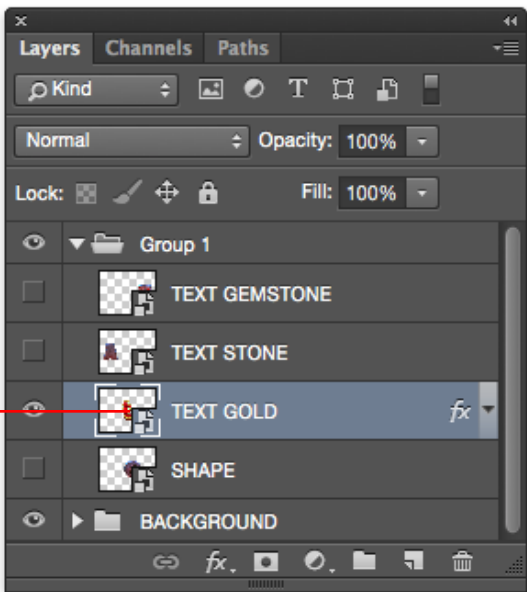

Smart Object 1

Doubleclicks this to
Edit Contents

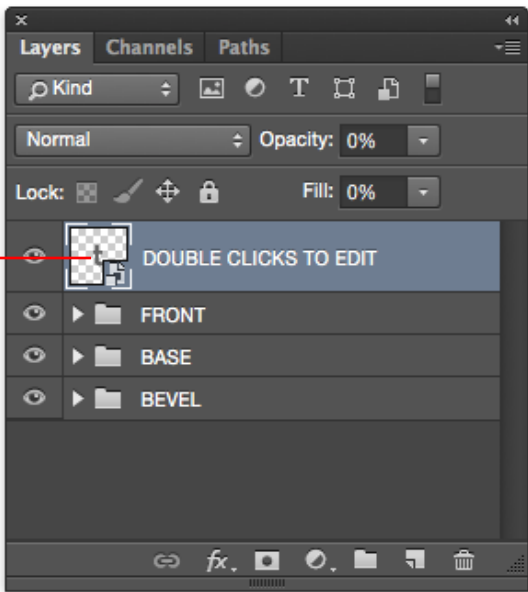

Smart Object 2

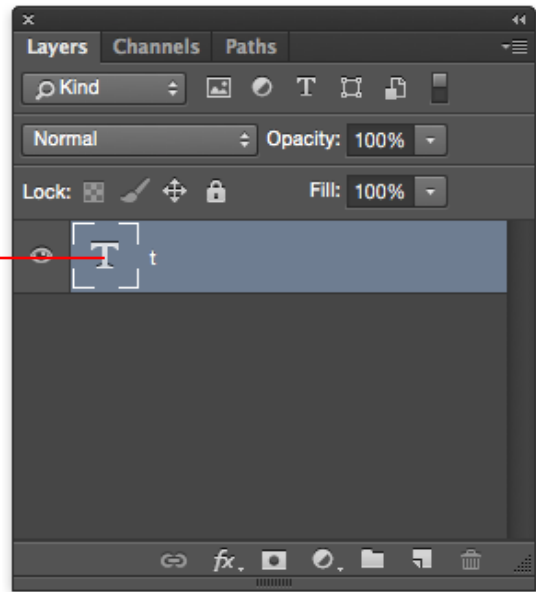

Edit this layer

will back
to this
screen

Save and close document
(Cmd+S, then Smd+W)

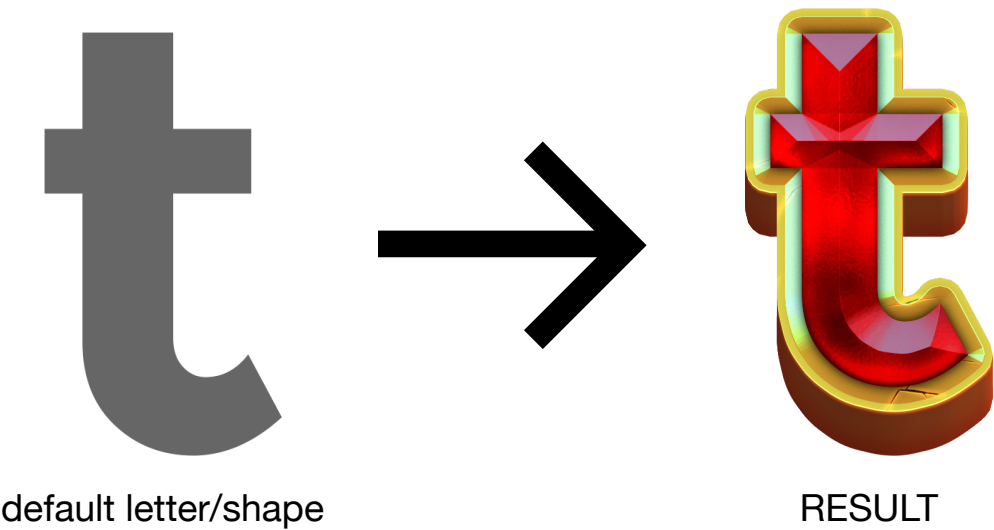

Save and close document
(Cmd+S, then Smd+W)

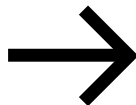

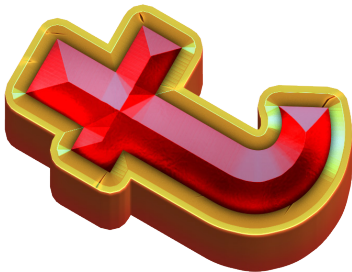

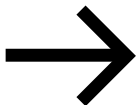

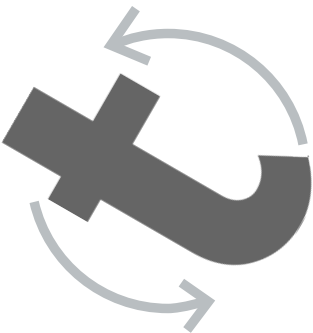

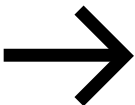

Perspective Angle Tricks

The default style only have 1 angle of perspective.

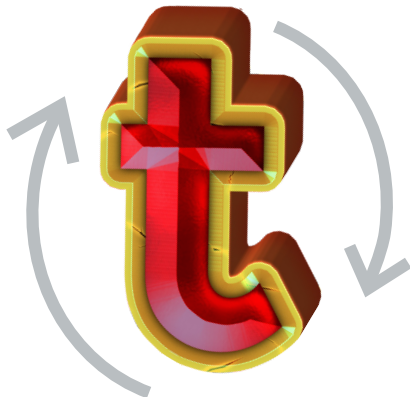

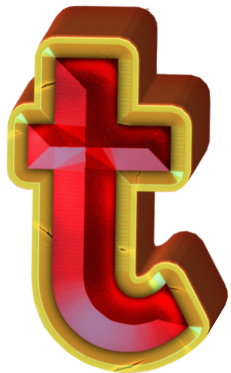

But don't worry.. you still can modify the prespective angle by doing this very simple tricks :)

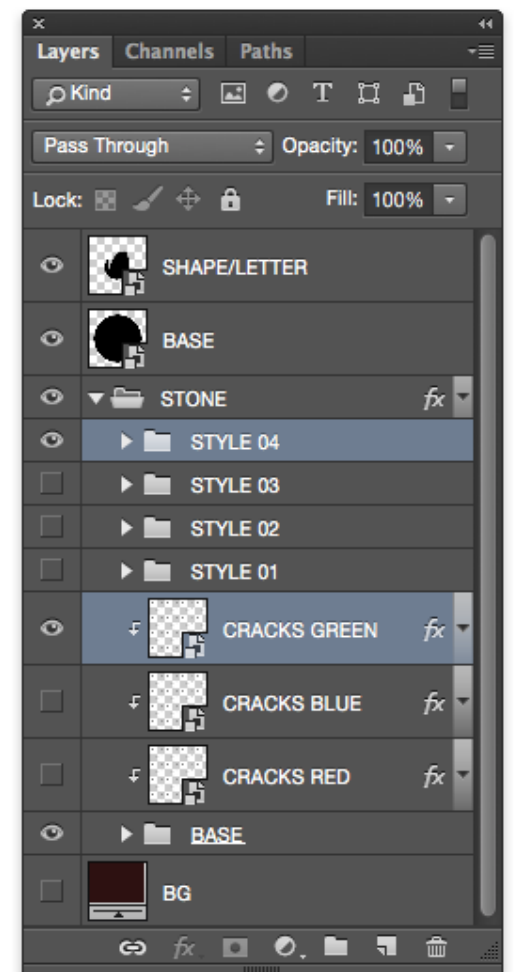

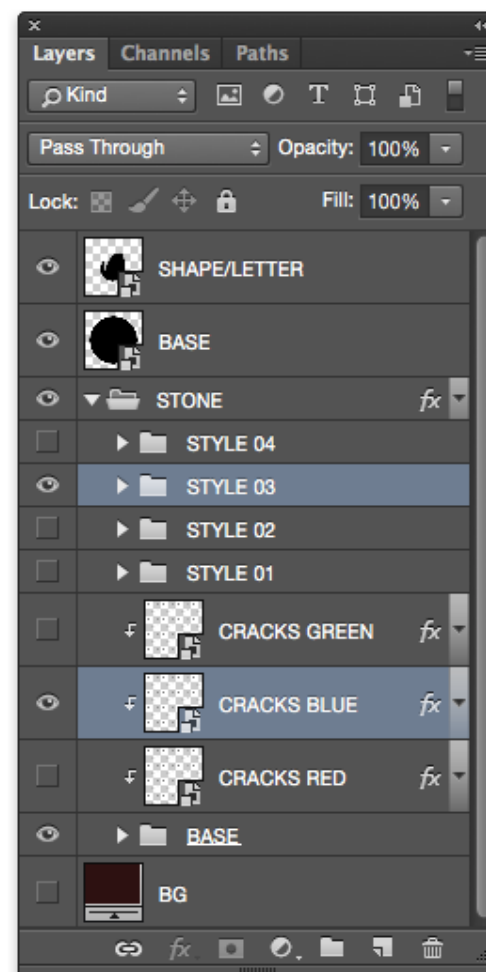

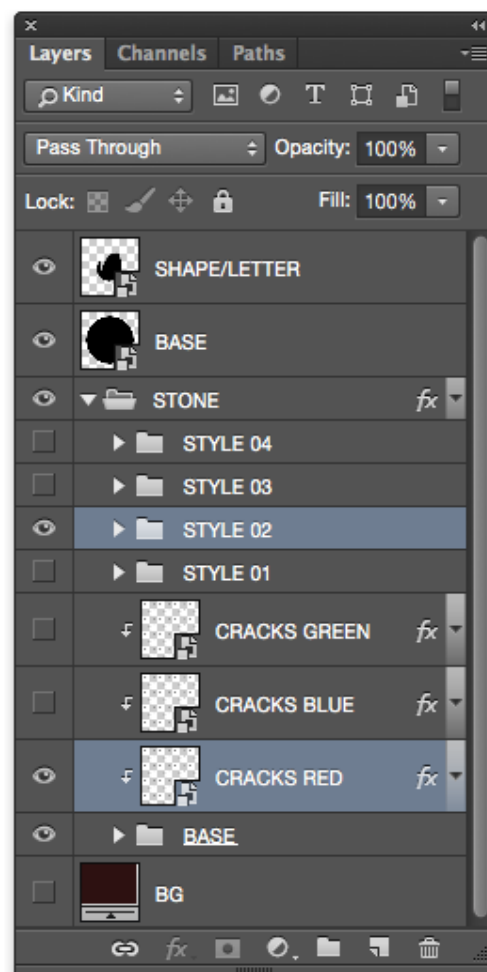

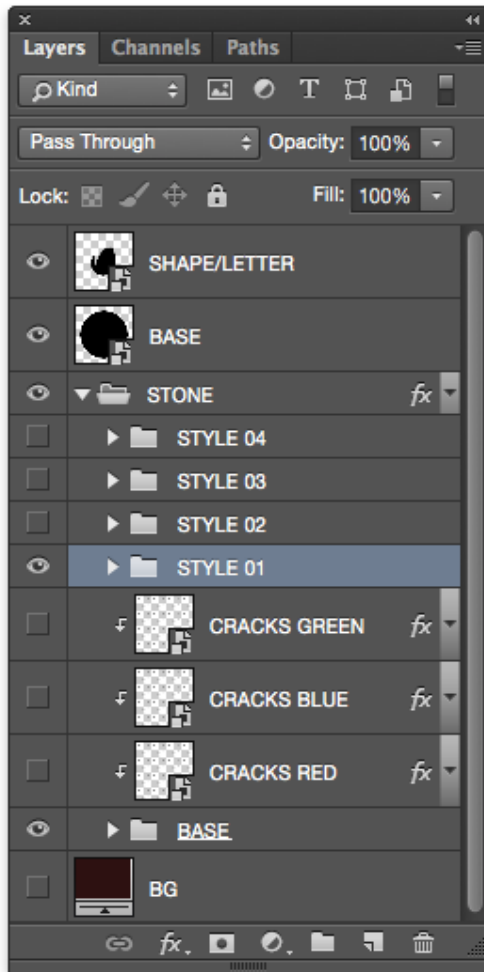

to modify different perspective like this

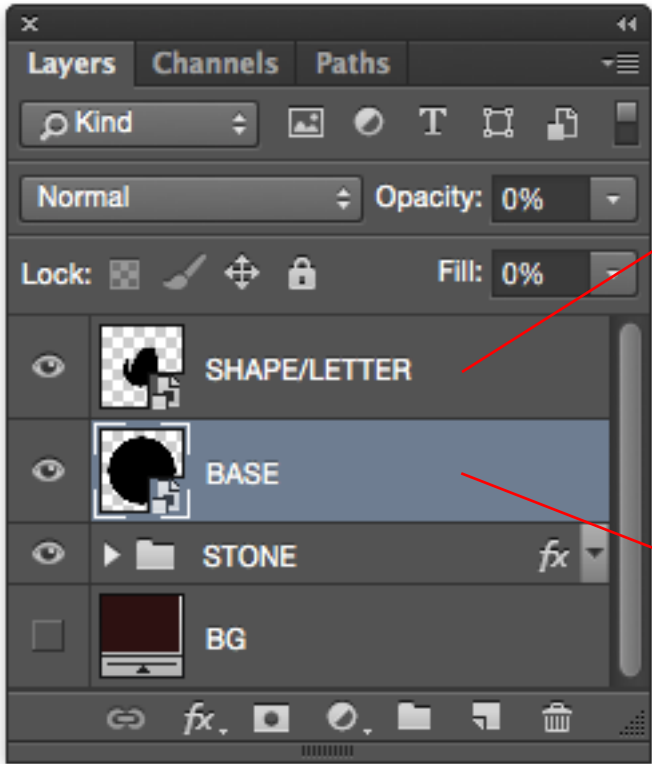

to modify different perspective like this

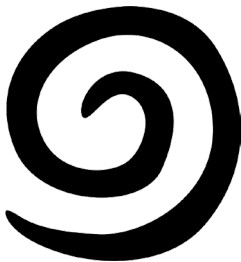

4 Styles

Custom Shape

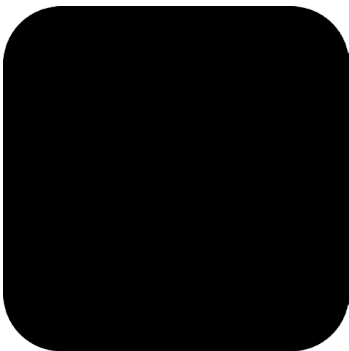

doubleclicks to
edit content

replace with your
own shape

doubleclicks to
